PolyRaj HDPE Pressure Pipes

Product Range

- Manufactured as per IS-4984:2016 standards for Polyethylene Pipes for Water Supply.
- Options of pressure rating : PN-2 / SDR-41 to PN-20 / SDR-6.
- Options of pipe OD : 20 mm to 500 mm.
- Options of HDPE raw material : PE-100, PE-80 & PE-63.
- Options of pipe length : 6 meter / 12 meter.
- Options of coil length : 100 meter / 200 meter / 300 meter / 500 meter.

Features and Benefits

- Excellent Corrosion & Chemical Resistance
- High Flow Characteristics
- Light Weight
- Excellent Flexibility combined with Strength
- Easy to Handle & Transport
- Good Abrasion Resistance
- Smooth Inner Walls
- Minimal Frictional Losses
- Hygienically Safe

PolyRaj™ offers HDPE Pressure Pipes manufactured using virgin grade high density polyethylene having multiple uses in drinking water, agricultural and industrial applications made of crystalline high density polyethylene resin known for its flexibility, toughness and chemical resistance. These features make HDPE pressure pipes well suited for those applications or industries requiring a pipe that is strong, durable, corrosion resistant and yet flexible enough to be assembled and installed in the most inaccessible and harsh environment.
