# PolyRaj PPR Pipes & Fittings

PolyRaj™ offers PPR Pipes & Fittings manufactured using virgin grade polypropylene random copolymer bringing evolution in the plumbing and irrigation systems through technological advancement and practical knowledge in the science of piping finding use in host of applications like hot & cold potable water piping in residential, commercial, industrial and public installations. Industrial piping for transferring water, sanitary liquids, liquid food products, compressed air, and aggressive chemicals, highly acidic or alkaline solutions. Building central radiator heating water, usually in a circular loop piping arrangement.

#### Product Range

- Manufactured as per IS-15801 : 2008 standard for Polypropylene Random Co-Polymer Pipes for Hot & Cold Water Supply.
- Options of pressure rating : PN-10 (SDR-11), PN-12 (SDR-9), PN-16(SDR-7.4) & PN-20 (SDR-6)
- Suitable for temperature range : 10oC to 95oC.
- Fittings manufactured as per DIN 16962 standard for PPR Pipe Fittings.
- Options of sizes : 16 mm to 200 mm.
- Options of pipe length : 6 meter / 12 meter.
- Options of colour : Special Green / Special Blue.

#### Features and Benefits

- Prone to Rust & Leakage
- Food Grade & Hygienic
- Contains Appropriate Anti-oxidants
- Excellent Temperature Resistance
- Negligible Heat Loss
- Excellent Chemical Resistance
- Possible to use Pipes upto 70°C
- Service Life of 50 Years
- Low Friction
