

YOUR GROWTH. OUR GROWTH.

PolyRaj Power Duct Pipes

PolyRaj™ offers Power Duct Pipes manufactured using virgin grade raw materials with inner layer of silicon designed in compliance with international and national specifications, offering faster, safer and easier methodology for building underground electrical networks. Special inside ribbed design offers high crush resistance and further reduces friction to facilitate cable placement.

Product Range

- Manufactured as per IS-15801:2008 standard for Polypropylene Random Co-Polymer Pipes for Hot & Cold Water Supply.
- Options of pressure rating : SDR 11, SDR 7.4, SDR 6 and SDR 5.
- Options of sizes : 110 mm to 400 mm.
- Options of pipe length : 6 meter / 12 meter.

Features and Benefits

- High Ductility, Flexibility and UV stability
- High ESCR and Crush Resistance Properties
- Enhanced Life of the Network
- High Flexibility
- Super Slick Inside Surface
- Low Pull Force Requirement
- Facilitates Maintenance and Future Upgrades
- Reduces Project Installation Cost and Time
